ABOUT STRUDCO

www.strudco.com

STRUDCO SERVICES LLP is a multidisciplinary engineering consultancy delivering expert solutions in structural engineering, façade design, drafting, and BIM modeling. Headquartered in Kollam, Kerala, and operating globally—including a presence in the Middle East, Europe, USA and Asia—our team brings deep technical insight and design innovation to every project.

We specialize in the design, analysis, and detailing of:

- Pre-Engineered Buildings (PEB) – industrial sheds, warehouses, and multi-span frames.
- Heavy-Duty Hot-Rolled Steel Structures – for high-rise towers, complex infrastructure, and special-purpose buildings.
- Structural Steel, Stainless Steel, Aluminium & Glass Structures – including intricate façades and bespoke architectural elements.

Our highly skilled structural engineers, façade engineers, façade detailers, and BIM modelers are passionate about delivering precise, efficient, and buildable solutions. We are proud to offer cost-effective services with a commitment to quality and speed, powered by original licensed software and deep familiarity with international standards (Eurocodes, AISC, BS, QCS, SBC and more).

VISION & MISSION

Vision

Our vision is rooted in innovation
—driving engineering solutions
that consistently exceed client
expectations

Mission

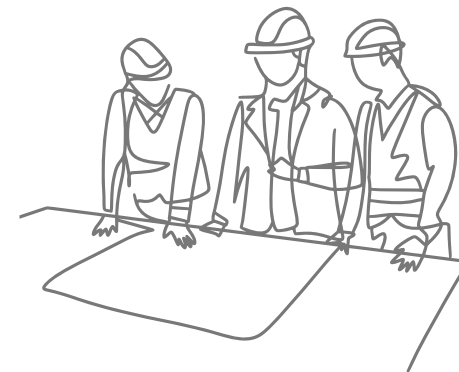

Our mission is to bridge the gap
between design intent and
execution efficiency. By aligning
aesthetic vision, structural
integrity, and economic viability,
we aim to be the reliable
engineering partner for
architects, developers, and
contractors.
